

Local Missions

Habitat for Humanity builds homes for low-income families and individuals. The homes are built with donations from the community, volunteers, and “sweat equity” from the future homeowners. MVPC has supported this effort for many years. Some of the costs might include light fixtures averaging \$25 and even the kitchen sink costing \$100. *Any size donation is appreciated and the money will go toward the Faith Build House.*

The House of Neighborly Service (HNS), located in Loveland, is a Christian faith-based organization that assists and advocates for people challenged by the effects of poverty or situational crisis. It provides programs that assist people with food, rent, utilities, prescriptions, gas, clothing and household needs. It also operates the 137 Homeless Connection that provides day shelter to homeless adults, offering showers, laundry facilities, phones, computers and some counseling services. Shelter for homeless families with children is provided by HNS’s Family Promise Program. *Your contribution of any amount will be appreciated and put to good use in our community.*

We have enclosed one “Thank You” Card that you may use or reproduce. You can also download the card from the website www.mymvpc.com. Additional copies can also be picked up in the church office or mailed to you upon your request.

From the safety and comfort of your home you can do all your Christmas Shopping.

International Missions

Malawi Projects directly benefit our partner congregation in Engalaweni, Malawi, focusing on hunger for the upcoming year. These projects help with basic hunger needs.

- **Orphan Fund** contributes money for feeding these less fortunate children.
- **Emma's Chicken Project** helps to purchase chicken and feed for Engalaweni and surrounding villages. This has been a very successful program run by the Engalaweni Women's Guild.
- **School Breakfast Feeding Program** helps to provide breakfast for primary students in Engalaweni and surrounding village schools. Hundreds of students benefit from being fed in the mornings. This has directly helped to increase school productivity.

Any size gift is appreciated and will be distributed with collaboration between the Mission Committee and Engalaweni Session

International Missions

Marion Medical Mission

works in Malawi, Zambia and Tanzania, installing shallow wells in remote villages to provide clean water for the people as they share the love of Christ.

It cost \$450 to install a well which provides clean water for the people as they share the love of Christ. Your gift of any amount will help reach that goal and is greatly appreciated.
